

Forced Relocation Recovery Program

Maintaining the internal resources to research and manage a wide range of forced relocation projects can be a daunting task.

With PRG's Forced Relocation (FRELO) Recovery Program, the control is in your hands. PRG can scale a custom FRELO program to meet your needs, saving you time and money while maximizing returns.

PRG can facilitate the recouping of loss brought on by forced relocation through effective project management. With the help of custom applications designed to streamline the relocation process, we put the maximum amount back in your pocket.

PROGRAM INCLUDES:

- **Dedicated research personnel to determine reimbursements**
- **All DOT, federal, state and municipality projects**
- **Project authorization packet**
- **Coordination with requesting party that includes cost estimates**
- **Moderated negotiation of terms for both parties**
- **Pre-construction agreement executed with outlined costs**
- **Handling of all invoicing and recouping of costs associated with project completion**

relocation
should
be more
than just a
handshake*

POLE AGREEMENTS

Having pole agreements in place can ease the pain of FRELO projects. Understanding existing agreements through research and direct field experience can help expedite a lagging relocation.

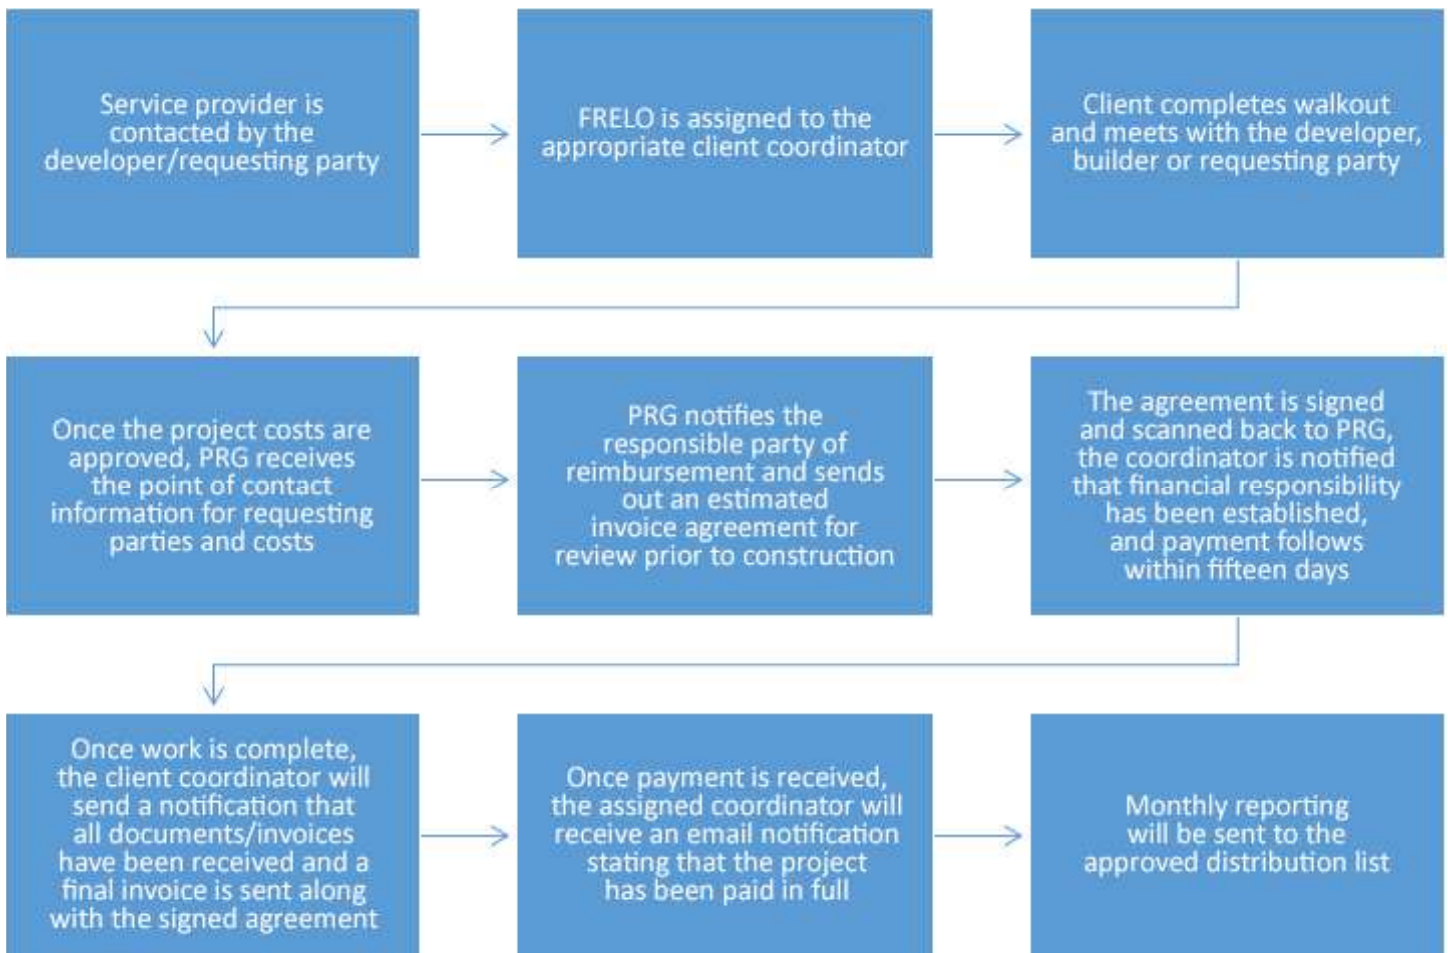

DOT / FEDERAL GRANTS

Utilizing DOT encroachments and federal funds made available through grants can be complicated and arduous. PRG's support team has decades of experience dealing with local governments.

OPEN COMMUNICATION

We provide reports tailored to your needs with 24/7 access to custom dashboards. With project progression updates through a PRG coordinator, you'll always have current, concise, and accurate data at your fingertips.
